AI IN FACILITATION

OVERVIEW

Roundtable discussion about using AI in facilitation and what works and doesn't. Explore the ethical considerations & opportunities to leverage AI in a responsible way. Consider the barriers to AI in facilitation and where AI is likely to develop the future of facilitation. Delve into specific technologies and identify the best of the best...for you!

Diana Gurwic is a Certified Master Facilitator® with over 25 years of experience in consulting, facilitating, coaching, and teaching. Diana has helped leaders of organizations in many industries develop strategic plans, restructure their organizations, leverage effective communication strategies, launch products, and lead technology rollouts. Diana obtained her BS from Cornell University and her MBA from the Wharton School of Finance and Economics. She holds her CMF from INIFAC, her SCP from SHRM, and her CCMP from the Association for Certified Change Management Professionals. Diana lives in New Jersey with her 2 teenage children and her dog and donates her time to working with the admissions team from Cornell and helping at-risk high school students fulfill their dreams in the college application process.
